DETAILED ACTION

Specification

1. In the specification page 1 in the " Cross-Reference to Related Application" section, the updated data such as "now US. Patent No. ____" or "now abandoned" should be inserted to the co-pending patent application.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taylor (US 6,569,013).

As per claim 1-2, Taylor discloses a game method comprising providing a first pay table; activating the game machine and determining whether a winning combination has been achieved; and providing a second different pay table for the next play if the winning combination has been achieved (abstract; Fig. 1; col. 7, lines 19-23). Taylor does not explicitly disclose a slot machine. However, since Taylor discloses the method can be applied to conventional

video poker or video slot machine (col. 7, lines 7-9), Taylor encompasses applying the method to a well-known slot game machine in order to provide different awards paid in different game stages.
